Divyam Navin
I.T.

Task - 2

1) Write a program using inheritance for given problem statement - Read data of a person and print information as a student and as an employee.

⇒ Code:

```
import java.util.Arrays

class person {
    String name = "Divyam Navin";
    String dob = "19th September, 2005";
    int mobile = 9876543210;

public void readData () {
    System.out.println ("Name: " + name);
    System.out.println ("Date of Birth: " + dob);
    System.out.println ("Mobile No.: " + mobile);
  }
}

class student extends person {
    String inst = "FCRIT";
    int rollno = 5054321;
    String quali = "Under-Graduate";
    String marks = "Physics: 88, Chem: 97, Maths: 100";

public void BioData () {
    System.out.println ("Institute: " + inst);
    System.out.println ("Roll No.: " + rollno);
```

```
        System.out.println ("Qualification: " + quali);
        System.out.println ("Marks: " + marks);
    }
}

class employee extends person {
        String company = "Google";
        String doj = "1st March, 2027";
        String designation = "Web Developer";
        int empid = 6024;
        int salaryhist = {250000, 450000, 650000};

public void Salary () {
        System.out.println ("Company Name: " + company);
        System.out.println ("Date of Joining: " + doj);
        System.out.println ("Designation: " + designation);
        System.out.println ("Employee ID: " + empid);
        System.out.println ("Salary History from
            2027 to 2029: " + Arrays.toString (salary
            hist));
    }
}

public class Role {
  public static void main (String [] args) {
  System.out.println ("Information as a student: \n");
  Student s1 = new Student ();
  s1.readData ();
  s1.BioData ();
```

```
        System.out.println("\n");
        System.out.println("Information as an employee:
                                \n");
        student employee e2 = new employee();
        e2.readData();
        e2.Salary();
        System.out.println("\n");
    }
}
```

⇒ Output:

Information as a student:

Name: Divyam Navin
Date of Birth: 19th September, 2005
Mobile No.: 9876543210
Institute: FCRIT
Roll No.: 5054321
Qualification: Under-Graduate
Marks: Physics: 88, Chem: 97, Maths: 100

Information as an employee:

Name: Divyam Navin
Date of Birth: 19th September, 2005
Mobile No.: 9876543210
Company Name: Google
Date of Joining: 1st March, 2027

Designation: Web Developer
Employee ID: 6024
Salary History from 2027 to 2031: [250000, 450000, 650000]
